Web Platinum

Web Platinum is our flagship service and includes a detailed review of your web site where we will provide you with findings and recommendations about how your web site can be improved.

A 'plus content' option with this service will be an edit of content, which will ensure high quality content for your visitors.

An effective web site should be changed on a regular basis so it doesn't become stale. Your site should have regular reviews and updates to keep it looking fresh.

You will get a detailed summary of actions that will fine-tune content and visuals with Web Platinum. Delivery of recommendations will be via the Internet (with discussion by telephone if required).

With all our services we can make the changes for you, work with your web designer and/or arrange for changes to be made via the PagePolish community.
